“ I’ve been providing art designs since 1999. My main area of expertise started with Graffiti works, but has expanded to designs and arts in various forms and unique artwork like graffiti, characters, logos, BI, CI, computer graphics, image clips, flash, homepages, etc. that are deeply rooted in “Street Art.”

I don’t really stick to one style. I like the harsh tones of Street Art and the sleek look of computer graphics at the same time, and enjoy working and creating a symphony that derives from two opposite touches by generating new ideas. I claim Santa Crewz is a troop of non-verbal communication specialists. ”

SENKONE

SENKONE

www.senkone.com

Tell us about Senkone.

Well, i was born in Split, Croatia, 28 years ago, where i live, study, work, and painting in my free time.

When did you start love and come apart to graffiti? and how?

I started in 1995, i was watching some graffiti movie on tv, so i got hooked up.

Do you ever realize that, so many people fans of your graff. That's why Artzmania want know you more. How can you describe it?

Well, i'm very flattered to know that. Don't know what to say, i'm just trying to do my best.

Tell us about graffiti arts in your country.

Scene here starts to growth in 1994-1996, especialy in Zagreb, which is capital,nowdays we have few really good artists like: Dock, Lunar, Morka, Mosk, Sec.. And lots of good writers doesn't paint any more or very rare.

What special things for your country in graffiti?

The scene is really small in Croatia, so we know all each other, and we're all good friends, we hanging and paint a lot together.We know each other from the beginings, so we support each others, and we're allways there for help.

About collaboration, who were be your first crews?

My first crew was TSA (tuff street artists), and after that i joind AF (alphabet force) which i'm still proud member.

SENKONE
www.senkone.com

On 1 week, how many walls can be your graffiti victim?

You should asked me that few years ago. As i'm working now, and study at the same time, i don't have many time any more for walls.

Graffiti can be involve on society & law. How can you describe it?

I think that it can be involved through society in some form of seminars, to show people the real meaning of graffities. And we the law, i don't know, in my expirience, i know you can't do much, you can just try to explain them what you are trying to do, so that they don't hush you too much while painting..

What is your opinions about art crimes?

Well, i support it, because it is the basic part of graffitis, but i don't like when it turns into destroying of everything (monuments,cars,etc).

Who influenced you the most?

At the very first beginig it was Cowboy, but later i become a fan of Daim,Dare,Won,Toast,Neck... I just love their work

Oh yes, what is your occupation?

I'm working in IT's.

Highly recommended!

True 2 the Game presents the double DVD "POWER OF STYLE" Over 240 minutes of strictly Berlin action featuring POET, ANGRY, Steel, Walls,.. Watch Berlin get busy..

DVD Graffiti in Berlin
